

# SONIC<sup>®</sup> PROCESS OIL

SUMMER & ALL SEASON

## PRODUCT DESCRIPTION

SONIC<sup>®</sup> PROCESS OIL is a carefully selected cut of virgin paraffinic base oil free of any additives or heavy metals. They are typically used by industrial customers for a wide variety of applications including manufacturing and large system flushes.

SONIC<sup>®</sup> PROCESS OIL also has uses in select agricultural segments as livestock oil. Note this is a refined paraffinic base oil and is intended for external use only; it should also be used sparingly on livestock.

## APPLICATIONS

- Industrial settings for use in raw material manufacturing
- Some agricultural settings
- Flushing fluid

When used as a flushing fluid, SONIC<sup>®</sup> PROCESS OIL will not remove baked-on carbon deposits; nor will it remove heavy sludge. It is intended as a generic contaminant flush fluid that itself will have to be drained prior to system refill.
