

**PREMIUM
LUBRICANTS**

TORC[®]

TORC[®] Transmission Drive Train Oils are designed to meet the rigid performance requirements and demanding environment for heavy-duty equipment found in the agriculture, commercial, construction and forestry industries. These oils are made to protect powershift/hydrostatic transmissions, final drives, differentials, torque converters, wet brakes, hydraulics and gear boxes. TORC[®] oils meet the requirements of the Caterpillar TO-4 and, in the appropriate product, the TO-4M performance specification. Choose TORC[®] for your heavy-duty equipment.

TORC®

10W, 30 & 50

PRODUCT DESCRIPTION

TORC® is recommended to meet the rigid performance requirements and demands of heavy-duty off-highway equipment.

The unique engineered formula increases component life in Caterpillar transmission and applications calling for the TO-4 performance specification.

PERFORMANCE FEATURES

- Top-quality single season performance
- Excellent performance for gears, bearings and friction disc materials
- Minimizes clutch wear and brake chatter
- Minimizes foaming which can lead to cavitation and overall loss of fluid
- Exceptional transmission shifting
- Excellent load carrying capacity

APPLICATIONS

TORC® protects the major components in Caterpillar powershift transmissions, final drives, wet brake components, hydrostatic transmission and hydraulics. TORC® products are also recommended for Allison powershift transmissions, Komatsu transmissions and final drives.

TECHNICAL PROPERTIES

The values listed below are typical of current production. As variations may occur, these numbers do not constitute a specification.

PROPERTIES	TEST METHODS	SAE GRADE		
		10W	30	50
Kinematic Viscosity cSt @ 40°C	ASTM D445	37.05	88.0	211.70
Kinematic Viscosity cSt @ 100°C	ASTM D445	6.15	10.72	18.32
Viscosity Index	ASTM D2270	113	106	95
Pour Point, °C	ASTM D97	-42°	-33°	-15°
Flash Point, °C	ASTM D92	230°	232°	280°
Brookfield Viscosity, cP @ °C	ASTM D2983	39,500 @ -35°	20,195 @ -25°	48,110 @ -15°
MRV, cP @ °C	ASTM D4684	<5,000 @ -25°	5,100 @ -15°	14,000 @ -10°
Foaming Sequence 1/2/3	ASTM D892	20/0,40/0,0/0	0/0,50/0,0/0	-

RECYCLING OF USED LUBRICANTS AND CONTAINERS

Please protect the environment when disposing of petroleum products. All products should be taken to an authorized collection facility or picked up by a qualified organization. This ensures the products will be disposed of in an environmentally sensitive manner. For additional information on used-oil recycling programs, please see the following:

- Saskatchewan – www.usedoilrecyclingsk.com
- Alberta – www.usedoilrecyclingab.com
- British Columbia – www.bcusedoil.com
- Manitoba – www.usedoilrecycling.com/en/mb

CONTACT INFO

For more information on this or any other CO-OP® lubricant product, please contact your local retail co-operative or Federated Co-operatives Limited.

TORC[®] PLUS

MULTI-SEASON

PRODUCT DESCRIPTION

TORC[®] Plus exceeds the rigid performance requirements and demands of heavy-duty off-highway equipment.

The unique engineered formula increases component life in Caterpillar applications calling for the TO-4 performance specification fluid all year round. The multi-season formula eliminates the need for overlapping seasonal changeouts.

PERFORMANCE FEATURES

- Multi-season formula designed for extended season use
- Exceptional transmission shifting
- Improved oxidation stability formulation to assist with increasing fluid life
- Minimizes clutch wear and brake chatter
- Reduces foaming in hydraulic applications
- Excellent performance for gears, bearings and friction disc materials

APPLICATIONS

TORC[®] Plus protects the major components in Caterpillar powershift/hydrostatic transmissions, final drives, differentials, torque converters, wet brakes, hydraulics and gear boxes. TORC[®] Plus is also recommended for Allison powershift transmissions, Komatsu transmissions and final drives.

* TORC[®] Plus Multi-Season is not recommended for equipment or seasonal conditions that require a SAE 40 or SAE 50 grade to be used. Alternatively, TORC[®] Series M Synthetic Blend would be recommended for use as it has a higher temperature operating range.

TECHNICAL PROPERTIES

The values listed below are typical of current production. As variations may occur, these numbers do not constitute a specification.

TORC[®] SERIES M SYNTHETIC BLEND

MULTI-SEASON

PRODUCT DESCRIPTION

TORC[®] SERIES M SYNTHETIC BLEND is formulated to meet the performance requirements and demands of heavy-duty off-highway equipment.

The unique engineered formula increases component life in Caterpillar applications calling for the performance specification TO-4M.

PERFORMANCE FEATURES

- Vast operating temperature range for multi-season use
- Specialized synthetic blend engineered to optimize protection for OEM equipment
- Extended clutch and bearing life, which reduces maintenance
- Provides shear-stability protection that promotes overall component life extensibility for heavy-duty equipment
- Minimizes foaming which can lead to cavitation and overall loss of fluid

APPLICATIONS

TORC[®] SERIES M SYNTHETIC BLEND protects the major components in Caterpillar powershift/hydrostatic transmissions, final drives, differentials, torque converters, wet brakes, hydraulics and gear boxes. TORC[®] SERIES M SYNTHETIC BLEND is also recommended for Allison powershift transmissions, Komatsu transmissions and final drives.

TECHNICAL PROPERTIES

TORC[®] SERIES CW SYNTHETIC

0W-20

PRODUCT DESCRIPTION

TORC[®] SERIES CW SYNTHETIC is specially formulated to meet the performance requirements for off-highway equipment operating in harsh environments with a temperature range of -40°C to 10°C for powershift/hydrostatic transmissions and -40°C to 40°C for hydraulics.

Recommended where rigid demands of the CAT TO-4 performance specifications are called for.

PERFORMANCE FEATURES

- Full synthetic multi-grade, specialized winter formulation
- Outstanding thermal stability and oxidation resistance
- Extended drain intervals possible with used oil analysis
- Minimizes clutch wear and brake chatter
- Minimizes foaming which can lead to cavitation and overall loss of fluid
- Top level corrosion inhibitor package
- Excellent load carrying capacity

APPLICATIONS

TORC[®] SERIES CW SYNTHETIC provides superior performance and protects the major components in Caterpillar powershift/hydrostatic transmissions, final drives, differentials, torque converters, wet brakes, hydraulics and gear boxes at extremely low temperatures. TORC[®] SERIES CW SYNTHETIC is also recommended for Allison powershift transmissions, Komatsu transmissions and final drives.

TECHNICAL PROPERTIES

TORC[®] SERIES HXA

10W

PRODUCT DESCRIPTION

TORC[®] SERIES HXA is a hydraulic/hydrostatic fluid designed to meet the performance requirements and protect heavy-duty off-highway equipment hydraulic systems and hydrostatic transmission components from excessive wear.

Contains emulsifier additives specifically designed to hold water in suspension, allowing for proper lubrication in hydraulic/hydrostatic operations.

PERFORMANCE FEATURES

- Extended drain intervals up to 6,000 hours or more possible with Co-op oil analysis, oil must be tested every 500 hours with Co-op oil analysis program
- Improved oxidation stability formulation to provide longer oil and hydraulic system life
- Wide operating temperature range -20°C to 40°C
- Specialized ZDDP (Zinc Dialkyldithiophosphates) formula to provide wear protection to critical hydraulic system pumps and parts
- Minimizes foaming which can lead to cavitation and overall loss of fluid
- Top level corrosion inhibitor package

APPLICATIONS

TORC[®] SERIES HXA is a long-life emulsifying hydraulic/hydrostatic fluid designed to meet the performance requirements of OEM equipment that requires the fluid to emulsify water (hold in suspension), where a water drain valve is absent from the system.

TECHNICAL PROPERTIES

The values listed below are typical of current production. As variations may occur, these numbers do not constitute a specification.

PROPERTIES	TEST METHODS	SAE GRADE
		10W
Kinematic Viscosity cSt @ 40°C	ASTM D445	42.0
Kinematic Viscosity cSt @ 100°C	ASTM D445	6.70

TORC[®] SERIES HXA

10W

PERFORMANCE SPECIFICATIONS

TORC[®] SERIES HXA is recommended and backed by the Federated Co-operatives Limited guarantee for use where Hydraulic/Hydrostatic emulsifying fluid is required in a 10W grade.

TORC[®] Series HXA is designed to eliminate water dispersion throughout the hydraulic system, falling in line with Caterpillar's recommendations for hydraulic applications in legacy to new models.

APPLICATION	TORC [®] SERIES HXA
	10W
Powershift Transmission, °C	N/A
Hydrostatic Transmission, °C	-20° to +40°
Final Drives, °C	N/A
